Finished Bricks (MOST POPULAR BRICKS)

A [Finished Brick](#) is a brick that has a smooth surface and beveled edges with spacer bars on the sides and is basically a "pretty brick". The is our most popular brick and comes in matching 4x8 and 8x8 sizes. It is primarily used on a sand base with a thickness of 2 1/4".

Belden Bricks

A [Belden Brick](#) is a brick that has a rough surface and straight or beveled edges. The is a popular brick and comes in matching 4x8 and 8x8 sizes. It is primarily used on a sand base with a thickness of 2 1/4".

Standard Bricks

A [Standard Brick](#) is a wire-cut brick that has a rough surface and looks like your typical outdoor brick. This brick only comes in 3 5/8 x 7 5/8 but has two thicknesses - 1/2" and 2 1/4". The 1/2" is used for a concrete base and the 2 1/4" is used for a sand base.

Concrete Bricks

A [Concrete Brick](#) is a brick that has a smooth surface and beveled edges with spacers on the sides. This brick comes in matching 4x8, 8x8 and 12x12 sizes which makes it different from a clay brick (clay bricks only come in 4x8 and 8x8 sizes). It is primarily used on a sand base with a thickness of 2 1/4". Concrete bricks have more of a variety in color.

Alfagres Tiles

An [Alfagres Tile](#) is more of a tile and is primarily used for a wall or ground (with concrete base only) surface. These bricks come in matching 4x8, 8x8 and 12x12 sizes with a thickness of 1/2". They are durable for both indoors and outdoors.

Quarry Tiles

A [Quarry Tile](#) is just like our Alfagres line and is primarily used for a wall or ground (with concrete base only) surface. These bricks come in matching 3 5/8 x 7 5/8 and 7 5/8 x 7 5/8 sizes (modular) with a thickness of 1/2". They are durable for both indoors and outdoors.

Marble Tiles

[Marble](#) is primarily used for a wall surface. They come in matching 4x8, 8x8 and 12x12 sizes with a thickness of 1/2". They are durable for both indoors and outdoors; however, we do not recommend outdoor ground installations due to a potential slippery liability.

Granite Tiles

[Granite](#) is primarily used for a wall surface. They come in matching 4x8, 8x8 and 12x12 sizes with a thickness of 1/2". They are durable for both indoors and outdoors; however, we do not recommend outdoor ground installations due to a potential slippery liability.

BRICKS/TILES/MARBLE/GRANITE PIECES ARE NOT LIMITED TO THE ABOVE.
